

OUR MONTHLY NEWSLETTER IS CHANGING TO A QUARTERLY PUBLICATION!

With our new online system and push to go green, this newsletter will be the first of our quarterly newsletters we will be sending out. You can also view each newsletter on our website blog!

PAPER BILLING VS. EMAIL BILLING

Starting in September, we will be processing a \$1.99 paper billing fee. The price of stamps have gone up 3 times in 3 years and will be increasing again this Summer.

In addition we have our new system with so many great capabilities like text notifications, paying your bill online with ACH or Credit Cards, and requesting a service or viewing your invoice AND service history in your own customer portal!

We have also revamped our website that allows you to access your portal, view our delivery calendar, access product manuals and more!

Chlorination System

UV Light System

GET YOUR WATER TESTED TODAY!

One of our Water Consultants will arrive at your home and provide a complete analysis of your water, fixtures, plumbing and water-using appliances. The water parameters tested include your water's hardness, pH, total dissolved solids, iron & sulphur. This is a FREE public service! However, additional tests that can only be tested in a lab would need to be collected and taken to the laboratory, and would include a fee. These are tests like e-coli & coliform, lead, arsenic, etc.

Owned & operated by the Kuyon family Deer Run is the oldest operating winery on Conesus Lake. The grapes & juice are sourced directly from their vineyard & other Finger Lakes vineyards. They have many offerings such as their Wine of The Month Club, Wedding & Event space, special monthly events & their new full service Tankroom Cafe that is open for dinner & brunch!
